25 Questions To Ask Yourself

Have you always felt different to your peers?

Do you worry about 'not being believed' when you tell others about yourself?

Do you adopt different mannerisms when home alone? Things that you wouldn't do in public?

Do you have gaps' in your skillset? Some simple things that others do naturally but you can't?

Do you like to be prepared? And dislike last minute changes?

Are your routines sometimes seen as 'extreme' or 'odd'?

Do you like to focus on ONE thing at a time? Because it takes a lot of effort to shift gears'?

Do you go through cycles of hyperproductivity? And then burnout?

Do you struggle to hold down a job? Friends? Relationships?

Do you have trouble expressing what you really mean? Especially under stress?

Are there some common types of communication you find extremely difficult? or uncomfortable?

Are you sometimes gullible? Struggling to tell whether people are being serious or not?

Do you often wish people would say what they mean? And get angry when they don't?

Are you particularly sensitive (or insensitive) to some things?

Does this lead to significant discomfort in some types of public places? Or in participation in social activities?

Do you feel like dealing with the outside world can be difficult and stressful?

Do you often notice things that others don't?

Do you have uncommon interests or passions? That others just don't get?

Do you find dealing with people difficult? Or confusing?

Do you feel like it's YOUR job to fit in? If you want to make friends?

Are you constantly worried about 'doing the wrong thing' socially?

Do you often feel overwhelmed by other people's emotions? (or not feel them at all?)

Are you often surprised when people tell you what they've been thinking or feeling? Because you had no idea?
