child on child sexual abuse IS sexual abuse.

age of the perpetrator isn't the only important or defining factor.

parents and other adults don't know what to say or do about it

talking about this will help

getting our child into therapy right away is best
 shame and disgust can come along with this type of abuse (really any type of abuse)
 hypersexuality is often a result of childhood sexual abuse
 even though many children were first abused themselves, they are still responsible for the pain they caused
 if a mandated reporter like a therapist or a teacher finds out about the abuse, child protective services will get involved and investigate
 we can heal from this!
