For more information, contact us at 1-800-KAP-TEST or visit [kaptest.com](http://kaptest.com).

### **Revolution and War**

Revolution within a state almost invariably leads to intense security competition between states, and often to war. In *Revolution and War*, Stephen M. Walt explains why this is so, and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future. In doing so, he explores one of the basic questions of international relations: What are the connections between domestic politics and foreign policy? Walt begins by exposing the flaws in existing theories about the relationship between revolution and war. Drawing on the theoretical literature about revolution and the realist perspective on international politics, he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals. Each state sees the other as both a looming danger and a vulnerable adversary, making war seem both necessary and attractive. Walt traces the dynamics of this argument through detailed studies of the French, Russian, and Iranian revolutions, and through briefer treatment of the American, Mexican, Turkish, and Chinese cases. He also considers the experience of the Soviet Union, whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world. An important refinement of realist approaches to international politics, this book unites the study of revolution with scholarship on the causes of war.

### **State and Revolution in Finland**

By analysing the experience of Finland, Risto Alapuro shows how upheavals in powerful countries shape the internal politics of smaller countries. This linkage, a highly topical subject in the twenty-first century world, is concretely studied by putting the abortive Finnish revolution of 1917-18 into a long historical and a broad comparative perspective.

## **The Affirmative Action Empire**

This text provides a survey of the Soviet management of the nationalities question. It traces the conflicts and tensions created by the geographic definition of national territories, the establishment of several official national languages and the world's first mass \"affirmative action\" programmes.

## **Irish Freedom**

Richard English's brilliant new book, now available in paperback, is a compelling narrative history of Irish nationalism, in which events are not merely recounted but analysed. Full of rich detail, drawn from years of original research and also from the extensive specialist literature on the subject, it offers explanations of why Irish nationalists have believed and acted as they have, why their ideas and strategies have changed over time, and what effect Irish nationalism has had in shaping modern Ireland. It takes us from the Ulster Plantation to Home Rule, from the Famine of 1847 to the Hunger Strikes of the 1970s, from Parnell to Pearse, from Wolfe Tone to Gerry Adams, from the bitter struggle of the Civil War to the uneasy peace of the early twenty-first century. Is it imaginable that Ireland might – as some have suggested – be about to enter a post-nationalist period? Or will Irish nationalism remain a defining force on the island in future years? 'a courageous and successful attempt to synthesise the entire story between two covers for the neophyte and for the exhausted specialist alike' Tom Garvin, Irish Times

## **The roots of nationalism**

This collection brings together scholars from a wide range of disciplines to offer perspectives on national identity formation in various European contexts between 1600 and 1815. Contributors challenge the dichotomy between modernists and traditionalists in nationalism studies through an emphasis on continuity rather than ruptures in the shaping of European nations in the period, while also offering an overview of current debates in the field and case studies on a number of topics, including literature, historiography, and cartography.

## **Globalization and Nationalism**

Argues for an original, unorthodox conception about the relationship between globalization and contemporary nationalism. While the prevailing view holds that nationalism and globalization are forces of clashing opposition, Sabanadze establishes that these tend to become allied forces. Acknowledges that nationalism does react against the rising globalization and represents a form of resistance against globalizing influences, but the Basque and Georgian cases prove that globalization and nationalism can be complementary rather than contradictory tendencies. Nationalists have often served as promoters of globalization, seeking out globalizing influences and engaging with global actors out of their very nationalist interests. In the case of both Georgia and the Basque Country, there is little evidence suggesting the existence of strong, politically organized nationalist opposition to globalization. Discusses why, on a broader scale, different forms of nationalism develop differing attitudes towards globalization and engage in different relationships. Conventional wisdom suggests that sub-state nationalism in the post-Cold War era is a product of globalization. Sabanadze's work encourages a rethinking of this proposition. Through careful analysis of the Georgian and Basque cases, she shows that the principal dynamics have little, if anything, to do with globalization and much to do with the political context and historical framework of these cases. This book is a useful corrective to facile thinking about the relationship between the 'global' and the 'local' in the explanation of civil conflict. Neil MacFarlane, Lester B. Pearson Professor of International Relations and fellow at St. Anne's College, Oxford University and chair of the Oxford Politics and International Relations Department.

## **World History**

“Great themes run through this book: local differentiation and societal integration, reform and revolution, innovation and renewal, conservatism and radicalism, tradition and modernity. All relate to the fascinating dialectic of Chinese history.” This comment by G. William Skinner aptly describes this pioneering volume in which twelve specialists in Chinese history discuss the great questions of history in the dramatic context of the “New China” of the early twentieth century. The work of young scholars from seven countries who have had access to Chinese, British, and French archives opened only in recent years, the book provides new findings that presage not only a reinterpretation of the Revolution of 1911 itself but also of the dynamic links between Imperial China and both the communist revolution of 1927-49 and the Great Proletarian Cultural Revolution of today. \“An outstanding example of historians’ inquiries is this collection of essays by 12 authorities, brilliantly edited by Mary Wright of Yale. Brilliant because unlike most such cooperative endeavors, the studies in this volume focus on a single major topic, China in the years around the revolution of 1911. The papers vary in scope, from a general interpretation of the origins of the warlord armies, which were to dominate Chinese political life until the mid-twenties, to a fascinating reconstruction of events hour-by-hour during the first week of the revolution in the city where it began, Wuchang. . . . This important work is bound to have a great impact on our understanding of modern China, and will surely stimulate further research in the period.\”—New York Times Book Review \“Will set a style for ten to twenty years hence by all scholars of the subject.\”—John K. Fairbank.

## China in Revolution

\“The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come.\” -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

## Global Trends 2040

Homage to Catalonia is George Orwell's personal account of his experiences and observations fighting for the POUM militia of the Republican army during the Spanish Civil War. The war was one of the defining events of his political outlook and a significant part of what led him to write in 1946, \“Every line of serious work that I have written since 1936 has been written, directly or indirectly, against totalitarianism and for Democratic Socialism, as I understand it.\” The first edition was published in the United Kingdom in 1938. The book was not published in the United States until February 1952, when it appeared with an influential preface by Lionel Trilling. The only translation published in Orwell's lifetime was into Italian, in December 1948. A French translation by Yvonne Davet-with whom Orwell corresponded, commenting on her translation and providing explanatory notes-in 1938-39, was not published until five years after Orwell's death. Book Summary: Orwell served as a private, a corporal (cabo) and-when the informal command structure of the militia gave way to a conventional hierarchy in May 1937-as a lieutenant, on a provisional basis, in Catalonia and Aragon from December 1936 until June 1937. In June 1937, the leftist political party with whose militia he served (the POUM, the Workers' Party of Marxist Unification, an anti-Stalinist communist party) was declared an illegal organisation, and Orwell was consequently forced to flee. Having arrived in Barcelona on 26 December 1936, Orwell told John McNair, the Independent Labour Party's (ILP) representative there, that he had \“come to Spain to join the militia to fight against Fascism.\” He also told McNair that \“he would like to write about the situation and endeavour to stir working class opinion in

Britain and France.\" McNair took him to the POUM barracks, where Orwell immediately enlisted. \"Orwell did not know that two months before he arrived in Spain, the [Soviet law enforcement agency] NKVD's resident in Spain, Aleksandr Orlov, had assured NKVD Headquarters, 'the Trotskyist organisation POUM can easily be liquidated'-by those, the Communists, whom Orwell took to be allies in the fight against Franco.\"

## **World Studies: Medieval Times to Today**

In *Economic Nationalism and Globalization* Henryk Szlajfer offers, against the background of developments in Latin America and Central Europe in times of globalization from late 19th century until late 1930s, a reinterpretation of economic nationalism both as an analytical category and historical experience.

## **Revelations from the Russian Archives**

The \"war on terror\" has generated a scramble for expertise on Islamic or Asian \"culture\" and revived support for area studies, but it has done so at the cost of reviving the kinds of dangerous generalizations that area studies have rightly been accused of. This book provides a much-needed perspective on area studies, a perspective that is attentive to both manifestations of \"traditional culture\" and the new global relationships in which they are being played out. The authors shake off the shackles of the orientalist legacy but retain a close reading of local processes. They challenge the boundaries of China and question its study from different perspectives, but believe that area studies have a role to play if their geographies are studied according to certain common problems. In the case of China, the book shows the diverse array of critical but solidly grounded research approaches that can be used in studying a society. Its approach neither trivializes nor dismisses the elusive effects of culture, and it pays attention to both the state and the multiplicity of voices that challenge it.

REA's TExES Social Studies 7-12 (232) Test Prep with Online Practice Tests Gets You Certified and in the Classroom! Teacher candidates seeking certification to become social studies teachers in Texas public schools must take the TExES Social Studies 7-12 (232) test. Written by Dr. Dean Ferguson, a nationally recognized test-development expert based at Texas A&M University-Kingsville, our prep provides extensive coverage of the exam's seven domains and 26 competencies. In addition to a thorough review, this test prep features a diagnostic test and 2 full-length practice tests (1 in the book and 1 online at the REA Study Center) that deal with every type of question, subject area, and skill tested on the exam. Our online tests offer timed testing conditions, automatic scoring, and diagnostic feedback on every question to help teacher candidates zero in on the topics that give them trouble now, so they can succeed on test day. REA's test prep package includes: - Comprehensive review of all content categories tested on the TExES Social Studies 7-12 exam - Online diagnostic that pinpoints strengths and weaknesses to help focus study - 2 full-length practice tests based on actual exam questions - Practice test answers explained in detail - Proven study tips, strategies, and confidence-boosting advice - Online practice tests feature timed testing, automatic scoring, and topic-level feedback REA's TExES Social Studies 7-12 (232) is a must-have for anyone who wants to become a social studies teacher in Texas.

## **SAT II U.S. History For Dummies**

The complete Cambridge History of Latin America presents a large-scale, authoritative survey of Latin America's unique historical experience from the first contacts between the native American Indians and Europeans to the present day. Colonial Spanish America is a selection of chapters from volumes I and II brought together to provide a continuous history of the Spanish Empire in America from the late fifteenth to the early nineteenth centuries. The first three chapters deal with conquest and settlement and relations between Spain and its American Empire; the final six with urban development, mining, rural economy and society, including the formation of the hacienda, the internal economy, and the impact of Spanish rule on Indian societies. Bibliographical essays are included for all chapters. The book will be a valuable text for both students and teachers of Latin American history.

## **Economic Nationalism and Globalization**

This book is the product of a massive effort to provide two complete practice exams based on the most recent Graduate Record Examinations. Each test contains every type of question that can be expected on the Political Science Exam.

## **China Inside Out**

The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic \"Doomsday Clock\" stimulates solutions for a safer world.

With realistic practice, proven strategies, and expert guidance, Kaplan's GED Test Prep Plus 2024-2025 (English edition, US exam) gives you everything you need to pass the test - including 60+ online videos to provide expert guidance. Kaplan is the official partner for live online prep for the GED test, and our GED study guide is 100% aligned with the GED test objectives. Kaplan's GED Prep Plus 2024-2025 covers all subjects and is designed for self-study so you can prep at your own pace, on your own schedule.

## **Colonial Spanish America**

Shakespeare and Indian Nationalism aims to articulate the reception of Shakespeare by the 19th-century Indian intelligentsia from Bengal and their ambivalent approach to the Indian Renaissance and consequent nationalist project. Showcasing the cultural politics of British imperialism, this volume focuses on six early nationalist writers and their engagement with Shakespeare: Hemchandra Bandopadhyay (1838–1903), Girishchandra Ghosh (1844–1912), Purnachandra Basu (1844–unknown), Iswarchandra Vidyasagar (1820–1891), Bankimchandra Chattopadhyaya (1838–1894), and Rabindranath Tagore (1861–1941). Drawing on Antonio Gramsci's theory of hegemony and a host of prominent writers of cultural politics, nationalism and Indian history, this interdisciplinary approach combines postcolonial studies and Shakespeare studies in an attempt to reconcile the existence of an unbridled admiration for an English cultural icon in India alongside the rise of nationalism and a fierce resistance to British rule. The book, finally, moves to re-explore Shakespeare's position in academic, political and popular nationalist discourses in postcolonial India.

## **The Best Test Preparation for the GRE (Graduate Record Examination) in Political Science**

With realistic practice, proven strategies, and expert guidance, Kaplan's GED Test Prep 2020 gives you everything you need to pass the test. Kaplan is the official partner for live online prep for the GED test and

## The Key to Understanding Global History

NEW YORK TIMES BESTSELLER • “Comprehensive, enlightening, and terrifyingly timely.”—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump’s presidency has raised a question that many of us never thought we’d be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* “What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read *How Democracies Die*. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN
