Midnight Born A Paranormal Romance The Golden Pack Alphas 5 Introduction

The Golden Pack Alphas

Were hybrid, Georgia Walker, has spent months avoiding Marcus, the wolf shifter otherwise known as the pain-in-her-ass. The brooding and stalkerish enforcer makes her lips curl in a snarl, but her skin tighten with need-a combination of reactions that has Georgia tense and less than her usual, affable self. She's spent her entire life struggling to fit in with her pack. She doesn't need Marcus around tempting her to flex her control and limits. Marcus Legrand loves a good chase, and Georgia stirs more than his love of a good hunt. Despite how well Georgia tries to hide behind her snarky sarcasm, he sees more than he knows she's comfortable with. Her scowls can't hide the flare of heat that sparks between them each time they meet. He's tired of Georgia running from him at every turn, but the too-smart-for-her-own-good she-wolf excels at pushing his buttons. When Georgia's father, current alpha to the Golden Pack announces his successor, it tilts Georgia's world on its axis. With unknown forces endangering the pack, Marcus and Georgia are forced to put aside their differences and work together, even as fate and attraction pulls them closer together.

Women Writers and Old Age in Great Britain, 1750-1850

This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of "classics," adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.
