Prepare: immerses the learners into the context and initiates holistic learning. It helps in the acquisition of newer perspectives through task-based activities. Practise: lays out the canvas for the stage of elaboration, in which the learners analyse and evaluate the text while applying their understanding of it. Perfect: aids memory encoding through drilling of vocabulary and grammar topics. It helps with incubation of concepts. Perform: functions as a confidence check for learners and ensures verification of their performative skills. This stage of summing up allows a functional integration of acquired concepts, leading to a celebration of learning. 6. Cross-curricular (CC) links weave references from other subjects through the chapters. 7. Task-Based Learning (TBL) activities present learners with real-life situations within the classroom. 8. This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies, which Marcuse defines as "all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature." Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories. The annotations and various indexes are models of clarity and usefulness, and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print, such as James L. Harner's Literary Research Guide (Modern Language Assn. of America, 1989), larger academic libraries will want Marcuse's volume.-- Jack Bales, Mary Washington Coll. . 320 Self Assessment Tests & Practice Papers for self -evaluation in CBSE class 10th exam. At the secondary stage of English language learning the textual materials and other resources should represent a wide range of learning experience. Literature has always played a significant role in learning language. However it is felt that pupils should be apprised with contemporary issues, read authentic literature and experiences of people to reflect and build their personality traits. While there is a trend for inclusion of a wider range of contemporary and authentic texts, accessible and culturally appropriate pieces of literature should play a pivotal role at the secondary stage of education. The English class is meant for reading literature from different perspectives and to engage in activities for developing communicative competence, creativity and enrichment of language skills It should not be seen as a place merely to read poems and stories in, but an area of activities to develop the learner's imagination as a major aim of language study, and to equip the learner with communicative skills to perform various language functions through speech and writing. The children are told that some cherries (their favourite noo- dles or cherries) are hidden somewhere in the bowl, and that serves as an incentive for drinking the soup. In joint families, by the time the children are old enough to know the trick played by their grandma, there is usually another group of kids ready to fall for it! They excite the kids, but the real nutrition lies not in the noodles but in the soup. The problems given in this book are like those noodles/cherries while solving all these problems are nutritious soup. Now it is your choice to drink the nutritious soups or not!!!.
